Headteacher: Mr Andrew Miller

AM/LH

12 December 2019

Dear Parents/Carers

I am writing to update you with regards to Mr Davison's absence. Mr Davison was in school on Tuesday for a meeting with me. As he now has a clearer timescale on his treatment plan he agreed that I should update you all.

Mr Davison became very ill very quickly over the Summer Holidays and was diagnosed with a brain tumour. He has had surgery to remove the tumour which has gone well. However, he must now undergo both radiotherapy and chemotherapy in order to ensure the tumour does not return. Thankfully, his prospects are very good and he should make a full recovery – although he will be absent from work while he undergoes his treatment over the next few months. He passed on his thanks for all of the good wishes and cards that have been passed to him.

We are hopeful he may return to Mowbray before the end of the academic year but this depends very much on his reaction to his treatments. We will keep in touch with him over the next few months and will update you with any further news about his return to work as we have it.

Yours sincerely

Mr A Miller
Headteacher
