ODD ONE OUT - 'How To' Guide

The task is to find as many ways that any one picture is the odd one out from the other two.

Example:

Picture 1 - Apple   Picture 2 - Apple   Picture 3 - Orange

So, your answer may look like this….

3 is the odd one out because it is not an apple
1 is the odd one out because it is on its side
3 is the odd one out because it doesn't have a stalk
2 is the odd one out because it has an image in the background
3 is the odd one out because it has six letters in its name instead of 5
2 is the odd one out because there are multiple fruits

Come up with as many reasons as you can and be as creative as possible!
